**Or Stop Being a Slug, Open This Book, and Make Your Brain Happy**

## WHAT ARE YOU WAITING FOR?

Get ready to embark on  
an adventure of a lifetime!

More than half a century ago,  
a mysterious figure named Professor  
L. Otto Funn unlocked the secret to making  
learning fun and exciting. He recorded his  
observations in confidential files that he kept  
hidden in his office. Before Professor Funn could  
publish his work, he disappeared on a research  
trip to the Bermuda Triangle, and his files went  
missing. Years later, they were discovered deep  
in the archives of renowned educational  
publisher World Book. Now, for the first time,  
World Book is sharing them with the public!

Each of Professor L. Otto Funn's carefully  
developed activities includes links to videos  
and other online content to help readers on  
their quests.
